

LifeNet helicopter to make appearance at Kids' Health & Safety Day on June 5 during Frontier Days weekend

CARSON CITY — There will be a new and exciting addition to Kids' Health & Safety Day, which is always held in conjunction with Carson City Frontier Days and is scheduled for Saturday, June 5, this year.

“We're thrilled to have the LifeNet helicopter – an amazing piece of machinery that operates 24/7 to save lives – here for the kids to explore and learn about,” said Jennifer Churchill, Carson City Hospital's Public Relations Manager. “We've never had this before, and already there's a buzz with local children, who've heard about it and seem to be very excited about seeing a helicopter up close.”

Kids' Health & Safety Day includes information tables, give-aways and drawings. The following organizations will have displays, demonstrations and other information during the event: Carson City Police Department, Carson City Fire Department, Montcalm County Ambulance, the Sparrow LifeNet helicopter, MiCHIP, McGruff the Crime Dog, Mid-Michigan Working Dogs, Montcalm County K-9 Rex, Fire Safety & Fire Pup, Water Safety, Dangerous Drug Look-A-Likes, Toy Safety, Oral Health & Hygiene, Smoking/Tobacco Dangers, Hazard Hamlet, and more.

Carson City Hospital is a title sponsor of Carson City Frontier Days, and the coordinating organization for Kids' Health & Safety Day. Kids' Health & Safety Day takes place from 9 a.m. to noon at the Carson City-Crystal High School Outdoor Complex.
